CO Research Trust

EVIDENCE • SAFETY • HEALTH

Apply for funding

Our current areas of interest are

- To improve the diagnosis of CO poisoning - by finding a new biomarker
- To understand the mechanics of CO poisoning - to improve treatments
- To understand co-morbidities in vulnerable groups - to develop solutions to mitigate risk
- To measure the scale of CO poisoning in the UK
- To understand the impact of building regulations and energy efficiency on CO safety
- To improve detection where the risk of CO exposure cannot be eliminated
- To understand the level of risk in the use of solid fuels

Apply for funding

Our current areas of interest are

- **To improve the diagnosis of CO poisoning** - by finding a new biomarker
- **To understand the mechanics of CO poisoning** - to improve treatments
- **To understand co-morbidities in vulnerable groups** - to develop solutions to mitigate risk
- To measure the scale of CO poisoning in the UK
- To understand the impact of building regulations and energy efficiency on CO safety
- To improve detection where the risk of CO exposure cannot be eliminated
- To understand the level of risk in the use of solid fuels
